1. OVERVIEW OF THE CALL FOR PROPOSALS

1.1. BACKGROUND

The Migration Partnership Facility (MPF) supports the implementation of the external dimension of the EU's migration policy, with flexible support to EU member states (EU MS) and partner countries with a particular focus on priority regions including Southern Neighbourhood, Sub-Saharan Africa, Central, South and West Asia.

The MPF is implemented by ICMPD through funding from the Directorate-General for Migration and Home Affairs (DG HOME) of the European Commission (EC). The overall strategic guidance, leadership and oversight for the implementation of the MPF is carried out by the MPF Steering Committee (SC). The SC comprises representatives of the EU institutions (DG HOME, DG MENA, DG ENEST, DG INTPA and EEAS) and is chaired by DG HOME, with ICMPD serving as the Secretariat and providing technical support/assistance for its functioning.

Since its establishment in 2016, the Facility has evolved, but remains at heart a mechanism to support EU member states' engagement with partner countries on agreed migration priorities through three funding frameworks – AMIF¹, ISF² and BMVI³ in line with the European Asylum and Migration Management Strategy⁴.

The focus of the MPF and, consequently, of these guidelines is aligned to the EC's 2020 "Pact on Migration and Asylum"⁵, as well as the "European Asylum and Migration Management Strategy"⁶.

The Pact seeks to reinforce the interlinkages between different migration policy areas and internal and external dimensions more thoroughly than in the past. It confirms the need *"(...) to include the EU's relationships with third countries, as the internal and external dimensions of migration are inextricably linked: working closely with partners has a direct impact on the effectiveness of policies inside the EU"*. The EU's aim with partner countries is to ensure mutual support in addressing challenges linked to migration.

The actions in and in relation to third countries supported under this Call shall ensure full coherence with the principles and general objectives of external European Union policy and with the Union's international commitments. They should focus on measures which are not development-oriented and serve the interest of internal Union policies.

1.2. OBJECTIVE OF THIS CALL FOR PROPOSALS

The objective of this **Call for Proposals** is **to support the EU's migration priorities with partner countries** taking into account the overall level of cooperation on all aspects of migration management, as per the Pact on Migration and Asylum, advancements in dialogue on migration, and in alignment with the political priorities of the Commission.

1.3. FINANCIAL ALLOCATION PROVIDED BY THE CONTRACTING AUTHORITY

The overall indicative amount available under this Call for Proposals is EUR 6,000,000.00, from [AMIF sources](#).

The Contracting Authority reserves the right not to award all available funds.

Size of grants

Any grant requested under this Call for Proposals must fall between:

- Minimum amount: EUR 200,000
- Maximum amount: no specific maximum is in place; however, applicants should consider – as in all project proposals - the need to demonstrate value for money and appreciate the programme's intention to fund multiple projects within its financial envelope.

Co-financing

With AMIF funds, the **MPF may finance up to 95% of the total eligible cost** of the action. The balance (i.e. the difference between the total eligible cost of the action and the amount requested from the Contracting Authority) must be financed from other sources (including own contribution of applicants).

1.4. RULES FOR THIS CALL FOR PROPOSALS

1.4.1 Eligibility criteria

There are three sets of eligibility criteria, relating to:

1. the actors:
 - the 'Lead Applicant', i.e. the entity submitting the application form (1.4.2.);
 - if any, its Co-Applicant(s) (where it is not specified otherwise, the Lead Applicant and its Co-Applicant(s) are hereinafter jointly referred as 'applicant(s)') (1.4.2.);
2. the actions:
 - actions for which a grant may be awarded (1.4.3.);
3. the costs:
 - types of costs that may be taken into account in setting the grant amount (1.4.4.).

1.4.2 Eligibility of applicants (i.e. Lead Applicant and Co-Applicant(s))

The Lead Applicant may act individually or with Co-Applicant(s).

In general, inclusion of Co-Applicants – particularly in the partner country - is highly recommended and taken into consideration in the evaluation scoring (see evaluation grids later in the document).

If awarded a Grant Contract, the Lead Applicant will become the beneficiary identified as the 'Coordinator' in the Special Conditions, while the Co-Applicant(s)(if any) will become Co-Beneficiary(ies). The Coordinator is the main interlocutor with the Contracting Authority. It represents and acts on behalf of any other Co-Beneficiary (if any) and coordinates the design and implementation of the action.

Co-Applicants participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the Lead Applicant.

Applicants have to fulfil the following eligibility criteria:

- Applicants have to be legal persons. Applications from natural persons are not eligible;
- Only applications from EU MS participating in the implementation of the AMIF fund⁷ are eligible under this Call.

Moreover,

(a) Lead Applicants have to be:

- A public authority of an EU MS (at central, regional or local levels) participating in AMIF; or
- An agency, institute, operator or other legal entity with an official mandate to operate on behalf of a public authority of an EU Member State participating in AMIF (please note that EU-financed agencies cannot be Lead Applicant but can participate as Co-Applicant on a no-cost basis); or
- A private or public law body registered in an EU Member State participating in the implementation of the AMIF (e.g. NGO, foundation, private company, university, etc.) operating on a non-profit basis.

Please note that in case of award to an entity that is not a pillar-assessed organisation nor a central government body/government agency, a due diligence process will be carried out by ICMPD to assess the financial and operational capacity of the applicant(s). Such a process may result, inter alia, in the need for the Lead Applicant to provide a pre-financing guarantee upon signature of the Grant Contract. See template in Annex VIII to the Grant Contract.

(b) Co-Applicants have to be:

- Public authorities of an eligible partner country (at central, regional or local levels); or
- Public authorities bodies of an EU MS participating in AMIF; or
- Non-governmental organisations (NGOs) and other private law bodies, established in an EU MS participating in AMIF or in eligible partner countries, working on a non-profit basis; or
- International organisations (IOs).

Additional requirements:

- Where the Lead Applicant is a non-state actor, it is mandatory to have as Co-Applicant a public authority (at national, regional, local level) in the same EU MS.
- If the Lead Applicant is not a governmental body at the central level, a letter of support from the key concerned central body in the same EU MS must be provided with the Full Application (unless they are a Co-Applicant).
- In case of no Co-Applicants from central government institution(s) in the target partner country(ies), a letter of support⁸ from the key central government concerned institution(s) in the partner country(ies) must be provided with the Full Application.

⁷ Denmark does not participate in the AMIF fund.

⁸ Exceptionally, and upon consultation with ICMPD and the European Commission services, where the political context does not allow for such support by means of an official letter, a confirmation of no-objection to the Action at the Full Application stage by the key institution(s) of the partner country(ies) concerned or other such indication may be accepted on a case-by-case basis.

Geographic scope

All proposals shall involve **at least one EU Member State participating in AMIF⁹ AND a partner country from the regions detailed below:**

EU Southern Neighbourhood¹⁰, Sub-Saharan Africa¹¹, South and West Asia¹², and Central Asia¹³.

1.4.3. Eligible actions: actions for which an application may be made
--

Duration

The duration of an action (i.e. end date of Grant Contract) **cannot go beyond 30 June 2031.**

Eligible fields, themes and activities (non-exhaustive list):

- Activities seeking to improve **partner countries' policy and legal frameworks for legal migration and labour mobility without any actual mobility** dimension to be funded;
- Activities seeking to strengthen **information, outreach and protection of migrants;**
- **Review and/or development of legislation, policy documents/strategies, action plans, policy tools and instruments, standard operating procedures linked to migration management;**
- **Capacity-building of partner country authorities on migration management,** including legal migration and labour mobility and comprehensive migration monitoring;
- **Capacity-building of partner country authorities related to readmission as well as reintegration of migrants irregularly staying in the EU (in coordination with FRONTEX);**
- **Activities seeking to strengthen partner countries' policy and legal frameworks as well as capacity-building on asylum policy and protection** in line with international standards;
- **Migration dialogue** at EU level with relevant partner countries, including:
 - Organisation of conferences, expert meetings and study visits;
 - Studies, reviews and mappings;
 - Evaluation and monitoring activities.

Additionally, applicants are invited to:

- a. Promote structural **intra EU cross-border cooperation**, including through the establishment of EU Member States consortia.
- b. Set up **multi-stakeholder partnerships** with a view to increase ownership and uptake. Where feasible, partnership arrangements should therefore promote meaningful participation of partner country counterparts and —when relevant— regional partners from the earliest stages. This includes systematising participatory needs assessments and co designing interventions with institutional counterparts and, where relevant and feasible, civil society, community and other independent actors. **Hybrid and multi-layered interventions** that combine operational cooperation with

institutional, governance and hands-on capacity-building components - as well as equipment, where relevant – should be prioritised.

- c. Set up **dedicated governance structures to facilitate strategic and operational oversight**, with the establishment of the following types of bodies:

- Steering Committees;
- Advisory bodies; and
- Operational committees.

Moreover, it is expected that project partners will maintain **close cooperation and communication with EU Delegations in partner countries and with relevant EU agencies** (e.g. FRONTEX, Europol, Eurojust, CEPOL) during project proposal formulation as well as project implementation, as applicable, in order to strengthen targeted complementarity checks and synergies with other interventions in the same thematic area(s) and country(ies) and avoid overlap.

- d. Envisage adequate **sustainability measures**, including institutional anchoring, localisation measures and Training-of-Trainers approaches - where applicable - to help retain knowledge within institutions.

Human Rights Based Approach

Projects shall integrate the **Human Rights-Based Approach (HRBA)**, that entails the incorporation of human rights standards and principles into all levels of grant project management. The HRBA ensures that the processes used in designing and implementing interventions further fundamental human rights and freedoms. Therefore, the HRBA working principles should guide the projects: applying all human rights for all; meaningful and inclusive participation and access to decision-making; non-discrimination and equality; accountability and rule of law for all; and transparency and access to information supported by disaggregated data. The projects should contribute to the development of the capacities of 'duty-bearers' to meet their obligations and/or of 'rights-holders' to enjoy their human rights.

Likewise, the projects should perform a due diligence risk assessment, in line with the 'European Union's human rights and international humanitarian law due diligence policy on security sector support to third parties (EU HRDDP)'¹⁴. This procedure helps projects to ensure that reasonable care is exercised when providing support to security forces and actors through identification, assessment and mitigation – and that specific measures are taken to manage the risks of potential human rights, international humanitarian law and refugee law violations.

Projects must ensure that the support provided does not contribute to or result in violations of international human rights law (IHRL) or international humanitarian law (IHL). Applicants shall demonstrate that mechanisms are in place to: (i) monitor that mitigation measures identified in the due diligence assessment remain operational and effective throughout implementation; (ii) detect, report and respond to human rights violations or abuses, including through credible accountability and remedial measures; offer adequate internal grievance and reporting mechanism in case of complaints and violations; and (iii) reinforce mitigation measures as necessary. Where violations are identified and remedial action is absent or insufficient, support may be suspended or terminated. Beneficiaries are required to commit to ensuring and improving respect for IHRL/IHL and to cooperate fully with monitoring, control and evaluation by the Contracting Authority, in line with ICMPD's HRDDP.

Ineligible Actions

The following types of action are **ineligible** for MPF funding:

- Actions concerned solely or mainly with individual sponsorships for participation in workshops, seminars, conferences and congresses;

¹⁴ [European Union's human rights and international humanitarian law due diligence policy on security sector support to third parties \(EU HRDDP\)](#)

- Actions concerned solely with scholarships/subsidies for studies that could be covered by another EU framework of support (such as Erasmus+, Erasmus Mundus, etc.);
- Actions that should preferably be funded by other relevant EU frameworks/funding sources (e.g. NDICI-Global Europe).

1.4.4. Eligibility of costs: costs that can be included

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'.

Eligible direct costs

To be eligible under this Call for Proposals, **costs must comply with the provisions of Article 14 of the [General Conditions to the standard Grant Contract](#)**.

Applicants agree that, in case of contract award:

- the **expenditure verification(s)** referred to in Article 15.6 of the General Conditions to the standard Grant Contract shall be carried out by an independent audit firm identified and commissioned by the Contracting Authority (ICMPD).
- A **final evaluation** of the project will be carried out by independent and external evaluators identified and commissioned by the Contracting Authority (ICMPD). For projects of longer duration and/or high complexity, a midterm evaluation may be carried out as well.

The costs related to the abovementioned expenditure verifications and final evaluations are covered by a separate MPF source and **need not be included in the grant budget**.

Purchase of limited equipment, which is indispensable to implement project activities (e.g. capacity building support and training), is eligible, if duly justified in the project proposal.

Salary costs of the **personnel of national administrations may be eligible** to the extent that they relate to the cost of activities that the relevant public authority would not carry out if the action were not undertaken. Such costs need to be in line with the official remuneration policies of the institution as well as in line with local legislation. The method for salary calculation should be clearly explained in the budget.

Contingency reserve

The budget may include a **contingency reserve not exceeding 5 %** of the estimated direct eligible costs subject to an absolute **maximum of 50,000 EUR**. However, it should be noted that it can only be used with the **prior written authorisation** of the Contracting Authority.

Eligible indirect costs

The **indirect costs** incurred in carrying out the action may be eligible for flat-rate funding, but the total **must not exceed 7 %** of the estimated total eligible direct costs. Indirect costs are eligible provided that they do not include costs assigned to another budget heading in the standard Grant Contract. The Lead Applicant may be asked to justify the percentage requested before the Grant Contract is signed. However, once the flat rate has been fixed in the special conditions of the Grant Contract, no supporting documents need to be provided at reporting stage.

If any of the applicants are in receipt of an operating grant financed by the EU, they may not claim indirect costs on incurred costs within the proposed budget for the action.

Non-cash / In-kind Contributions

Notwithstanding Article 14.8 of the Standard General Conditions of Grant Contract, non-cash/ in-kind contributions are eligible under this Call.

Non cash / in-kind contributions refer to non-monetary resources made available for the implementation of the Action.

Non-cash /in-kind contributions **constituting co-financing** are contributions in goods, services or resources that are monetised and included as a cost in the approved budget, and which therefore count towards the co-financing requirement of the Action, subject to compliance with the applicable eligibility rules.

In-kind contributions **not constituting co-financing** are contributions that are not monetised and not included as a cost in the budget. Such contributions shall not count towards the co-financing requirement and may be reflected, for information purposes only, in the Description of the Action. Where foreseen in the Description of the Action, they are mandatory to provide.

Ineligible costs

The following costs are not eligible (non-exhaustive list):

- Debts and debt service charges (interest);
- Provisions for losses or potential future liabilities;
- Costs declared by the beneficiary(ies) and financed by another action or work programme receiving a European Union grant;
- Purchases of land or buildings, except where necessary for the direct implementation of the action, in which case ownership must be transferred in accordance with Article 7.5 of the general conditions of the standard Grant Contract, at the latest at the end of the action;
- Currency exchange losses.

The full list of ineligible costs can be found under **Article 14 of the [General Conditions to the standard Grant Contract](#)**.

Non-cumulative award

An action may only receive one grant from the EU budget, and in no circumstances shall the same costs be financed twice by the EU budget.

Non-retroactivity

No grant may be awarded retroactively for activities already started or completed. Unless specifically agreed, eligible costs cannot have been incurred prior to the start date of the Grant Contract.

Non-profit

The grant may not produce a profit for the applicants. Profit is defined as a surplus of the receipts over the eligible costs approved by the Contracting Authority when the request for payment of the balance is made.

2. APPLICATION, EVALUATION AND AWARD

1.1 HOW TO APPLY AND THE PROCEDURES TO FOLLOW

The application process consists of the following two steps:

1. Submission of a Concept Note and, only in case of approval, an invitation to the following step:
2. Submission of a Full Application.

Concept Notes and, if applicable, Full Applications, shall be drafted in English, by filling in the online forms found on the [MPF submission portal](#) (the relevant files are indicated – for reference only – in annexes to these guidelines and available on the [MPF website](#)).

2.1.1 Concept Notes

Please note that:

1. In the Concept Note, Lead Applicants shall only provide an estimate of the total eligible cost of the action and the requested contribution as well as an indicative percentage of that contribution in relation to the eligible costs of the action. A detailed budget is to be submitted only by the Lead Applicants invited to submit a Full Application in the second phase. The amount requested in the Full Application shall be in line with the amount indicated in the approved Concept Note and/or recommendations from the evaluators.
2. The core elements outlined in the Concept Note shall not be substantially modified in the Full Application (target countries, specific objectives, etc.) as the decision to invite applicants to submit a Full Application is based on the information provided in the Concept Note.
3. Only the Concept Note form will be evaluated. No additional annexes shall be sent.
4. It is strongly encouraged to confirm consultation with the Partner Country(ies) and alignment with its priorities as well as engagement with the EU Delegation in the target Partner Country(ies) already at the Concept Note stage to ensure coherence and complementarity with other initiatives.

Clarifications will only be requested when the information provided is insufficient to conduct an objective

assessment.

2.1.2 Where and how to submit a Concept Note

The Concept Note can be submitted anytime (no specific deadline) through the [MPF submission portal](#).

2.1.3 Evaluation and selection of Concept Notes

Concept Notes are checked by ICMPD for administrative and eligibility compliance and subsequently assessed by DG HOME. In case of positive assessment, the Concept Note will be shared with the concerned EU Delegation(s) to confirm complementarity and no duplication with ongoing and planned actions. At this stage, if considered necessary, a meeting between the applicant(s) and the EU services may be convened to clarify aspects of the Concept Note.

Within 30 calendar days, ICMPD will inform the Lead Applicant in writing of either an invitation to submit a Full Application or a rejection.

The Concept Notes will be assessed on the relevance and design of the proposed action.

The Concept Notes will be assigned an overall score in accordance with the evaluation grids below.

The evaluation grid is divided into sections and subsections. Each subsection must be given a score between 1 and 5 in accordance with the following guidelines:

Score	Meaning
1	Very poor
2	Poor
3	Adequate
4	Good
5	Very good

TOTAL SCORE	65

**This score is multiplied by four (4) because of its importance.*

Only Concept Notes with a score of at least 45 will be considered for pre-selection.

2.1.4 Full Application

Lead Applicants invited to submit a Full Application following the pre-selection of their Concept Note shall fill in the online application template available on the MPF portal. Lead Applicants shall strictly comply with the format of the online grant application form. **No additional annexes shall be submitted other than those required by the Call.**

Clarifications will only be requested when the information provided is unclear and thus prevents the evaluation committee from conducting an objective assessment.

2.1.5 Where and how to submit a Full Application

Full Applications shall be submitted through the [MPF website](#) within 60 calendar days of receipt of the written invitation to submit following positive assessment of the Concept Note.

An extension beyond the 60 calendar days may be granted upon a duly justified request submitted in writing (by email) by the Lead Applicant. Such correspondence should be sent to MPF@icmpd.org

2.1.6 Evaluation and selection of applications

All applications will go through an Administrative and Eligibility Check carried out by ICMPD.

Eligible applications will be subject to a consultation process with the MPF Steering Committee, all EU Member States and EU services active in the target partner country to check potential synergies or risks of duplications with other activities implemented, ongoing or being planned in the concerned countries.

Eligible applications will then be examined and evaluated by an Evaluation Committee comprised of relevant EU services (DG HOME, EEAS, DG INTPA, DG MENA and/or DG ENEST), based on the criteria in the evaluation grid below.

There are two types of evaluation criteria: Financial and Operational criteria and Proposal Evaluation criteria.

The Financial and Operational criteria are used to assess the applicants' operational and financial capacity, and, more specifically, that applicants meet the following requirements:

- Having stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding;
- Having the management capacity, professional competencies and qualifications required to complete the proposed action successfully.

The Proposal Evaluation criteria help evaluate the quality of the applications in relation to the objectives and priorities set forth in the Guidelines and award grants to projects that maximise the overall effectiveness of the Call for Proposals. They cover the relevance and design of the action, implementation approach and added value, sustainability and cost-effectiveness.
