

CAPACITY BUILDING FOR MIGRATION MANAGEMENT

Migration Management Diploma Programme for Representatives of MP and CAMM Countries (MMDP)

About the Project

The Migration Management Diploma Programme (MMDP) aims to create a shared understanding of multifaceted migration issues and contribute to more comprehensive and better informed migration policies among partner countries and EU Member States, by implementing a training programme for partner country-government officials.

Partners

This MPF project is implemented by the Maastricht Graduate School of Governance (MGSoG) of the Maastricht University.

Countries

The Netherlands, MP and CAMM countries

Time frame

November 2020 - July 2022

Budget

EUR 723,740.50 (94.60% from AMIF)

Activities

Inception and Deployment

The MMDP will train up to 40 civil servants and policy practitioners working in the area of migration and coming from MP and CAMM countries. Country-analyses and the identification of tailored candidate profiles during the inception phase will allow to target participants who are best positioned within their national governance systems to support dialogue between the EU and partner countries, as well as other priority countries that may amplify or benefit from the development impacts of migration.

Capacity Building

The MMDP training curriculum addresses all the central tenets of the EU migration cooperation frameworks: better organisation of legal migration, preventing and combatting irregular migration and trafficking in human beings, maximising the development impact of migration, and promoting international protection. Furthermore, the MMDP supports participants in assessing their own policy systems according to common standards and methodologies and integrating evidence-based research into national dialogues, policy design and migration governance frameworks.

Operational Exchanges

To enhance peer-to-peer exchange and mutual learning, the MMDP offers a holistic incorporation of migration into different policy arenas using an interactive and cross-sectoral teaching approach. Exchange and collaboration among participants will be strongly encouraged during the programme through group work and participant-led learning to create networks and knowledge for intra-agency coordination.

Strengthening the Network

The comprehensive thematic coverage ensures that MMDP graduates will achieve in-depth theoretical and practical knowledge in each of the key migration areas that can be applied to national and intra-agency policy-making processes upon their return.

Implemented by

The Migration Partnership Facility

This project is awarded and contracted in the framework of the Migration Partnership Facility (MPF), an EU-funded initiative implemented by ICMPD in support of the external dimension of the EU migration policy. Through its grants, the MPF allows the execution of projects aimed to strengthen dialogue and cooperation on migration and mobility between Member States and partner countries outside the EU.

Funded by the European Union

Contracted by ICMPD
